(Read the notification of the course)

1. INTRODUCTION

B.Sc. (Hons.) Agriculture is a four year professional undergraduate course that is intended to equip students with scientific knowledge and practical hands on experience in agriculture and allied sciences. The programme covers varied disciplines including Agronomy, Soil Science, Horticulture, Plant Pathology, Entomology, Genetics and Plant Breeding, Agricultural Microbiology, Animal Husbandry etc. that are important in designing the future of farming. The course aims to provide the basic training that is needed to practice modern agricultural techniques in field for food security and sustainable production.

2. COURSE OBJECTIVE

- To impart sound knowledge and skill in the field of agriculture and allied sciences
- To develop competency and management capabilities to address field related issues
- To equip students for research and specialization in varied branches of agriculture
- To provide opportunity for the young minds to serve the farming community
- To promote innovations and entrepreneurship in agriculture- based vocations
